

Never Forget

Local 1-2 Brothers and Sisters on this date, September 11, 16 years ago our nation was attacked. How Utility Workers of Local 1-2 responded is testament to your professionalism, selflessness, and dedication to the public.

So, pause today, especially at 8:45 a.m., when the first plane struck the World Trade Center and all our lives changed in an instant.

Before the flames had died Local 1-2 responded to the largest mass attack in our nation's history.

In record time, we pulled miles of cable in Lower Manhattan, to restore power, to restore hope and to restore a staggered country and help it back to its feet.

Some of our Brothers and Sisters were sickened over time from their exposure to toxins during those dark days. Some have died and some bear the scars to this day.

Never forget! Never forget the work we do every day. But especially pause and remember that Utility Workers are First Responders and never shirk their duty.

The Officers and Executive Board of Local 1-2 will never forget as we fight each day for your welfare.
