

Brothers and Sisters of Local 1-2, as we observe the Dr. Martin Luther King ,Jr. Holiday, please take time to reflect on how far we have come in the past half-century since his assassination and how much further we have to go as Americans. We are still seeking justice, peace, a fair share for our labor, health care and a government that works for us, the working men and women who make America possible. As Members of Local 1-2 we have achieved through our Union some of these goals. The struggle continues for most working men and women who toil against a stacked deck. So, remember these words of Dr. King:

“In our glorious fight for civil rights, we must guard against being fooled by false slogans, as ‘right-to-work.’ It provides no ‘rights’ and no ‘works.’ Its purpose is to destroy labor unions and the freedom of collective bargaining... We demand this fraud be stopped.”
