

Local 1-2 Brothers and Sisters

Eighteen years ago, today at 8:46 a.m., our lives and our nation were changed forever, when the first plane flew into the World Trade Center, and as a Union of First Responders we were there on the scene. We were on that scene right away and we stayed there for many months to come. As part of the proud legacy of 9/11 First Responders, and all Americans, that day we put the power back on for a city in mourning.

Local 1-2 provided more than 6,000 miles of cable during those grim days and weeks to keep our country up and running. And we spent many more days on the pile as we recovered.

So today, on this day of remembrance, where our own Brothers and Sisters became sickened and died from that work, please take the time to pause, remember and give thanks for our Union brethren who paid the ultimate price, little did they know that day.

Never Forget!
